## STUDENT COUNCIL

## Rationale

The formation of Student Council is to grant students authorities, obligations and rights to help build and manage our school. Students, as owners of a school, should be given autonomy and responsibility to voice, participate and manage.
We believe that a better school and a spirit of democracy should be built and exercised under substantial enthusiasm and cooperation among all individuals, especially teachers and students. It is, therefore, necessary to have our School's Student Council formed as an officially preliminary organization to Student Union for further scholastic development in the not-too-distant future.
